Lagos, Nigeria

- Secondary school education

2012-2017

PROFESSIONAL EXPERIENCE

VAAV Innovative Solution

Ibadan, Nigeria

- Graduate Intern, Frontend developer
 - Building and management of company website.
 - Implemented feature such as an ecommerce platform, an energy auditing system and a system that recommends a product based on the result from your energy audit.

2023-2024

FAAN Murtala Muhammed Airport

Lagos, Nigeria

- Intern, Frontend developer
 - I was involved in the development of a website which was used in the powerhouse to input the values from the transformers and meters on the circuit breakers for record keeping.
 - This eliminated the use of handwritten records with could easily get misplaced.
